When it is attached, it can endure strong impacts and release it at 2 times power.
Since its heavy, it reduces movement.

WINGMAN
VOL2 CH16

TN: Many sentai heroes have many "alternate forms", so in a way it's no surprised that Wingman would have a "defense form" like such. It does seem very useful so far...but of course these sorts of things can only go so far, such as with the fused true form of Kita Kura's latest beast! It's also real cool Aoi can finally use Podreal Space herself...but unfortunately she's still sort of new at it considering how much Dimension Power she used up...but it's not like it's over yet!
